CXI SPA: AROMAS AND EMOTIONS

Smell is a way of direct communication between our surroundings and our emotions; scents and flavours arrive without intermediaries to the "home" of emotions, triggering a cascade of memories and feelings. Every Wednesday and Sunday, from 10:00 am to 7:30 pm, the CXI SPA proposes exfoliation for the body. Inside the warm bath, revitalizing essences act on emotions through the sense of smell. The application of a natural cream for the body concludes the treatment, offering the skin a new vitality.

Booking in advance is required.

For a moment of relaxation and wellness try the [proposals of CXI Spa](#) including a healthy snack to stay in shape and to increase the benefits of the Spa.
