CXI SPA

LUXURY, BEAUTY, NATURE, HERE AND NOW

The innovative path of wellness and beauty of CXI Spa uses outstanding cosmeceutical products in synergy with the most prestigious ingredients. Selected from the best international proposals, they help restore inner and exterior balance.

THE COLLABORATION

Med Beauty Swiss produces medical cosmetics since 1991 with active ingredients for beautiful skin.

The Med Beauty Swiss skincare products optimally combine a long-standing tradition in advanced cosmetics with the latest scientific research. The comprehensive Med Beauty Swiss and Cell Premium product range, according to the highest standards of quality and compatibility, works preventively and includes dermatological home care solutions for all skin conditions.

MED BEAUTY SWISS AMINOCARE

50 Minutes / 155 €

Intensive and powerful anti-aging facial with amino acids to clean up, strengthen and lighten the skin.

Facial treatment based on an intensive exfoliation that works to improve skin appearance, reducing pigmentation and firming.

The most effective actives are the acids from seeds and sugar cane plant, which promise the highest compatibility and minimal risk of irritation. The products neutralize free radicals, lighten pigment spots, stimulate collagen synthesis and reduce lines and wrinkles.

CELL PREMIUM LUXURY

80 Minutes / 240 €

Welcome to a new age of development.

Cell Premium is the first LUXURY medical-cosmetic anti-aging skin care line from Switzerland. It is based on the "Advanced Anti-Aging Complex Dr. Gerny" with 4 actives from stem cells of plants. A revolutionary innovation that activates, protects and regenerates the epidermis and dermis cells, with tangible and visible rejuvenation results.

Only cell premium together with active plant stem cells that reach, activate and protect the epidermal stem cells on the skin's surface as well as those in deeper dermal layers for face, eyes and décolleté.

 Made in Switzerland

MICRONEEDLING

80 Minutes / 290 €

The new gentle lifting.

After a detailed skin analysis, the treatment is based on the age and condition of the skin as well as on the beauty goal. For the first time professional skin care experts have a wide-ranging technology available where every aspect of the client's skin can be analysed.

The Microneedling treatment is a minimally invasive medical treatment to improve the skin structure and reduce visibly wrinkles and fine lines. During the treatment, the thin needles penetrate into the epidermis layers to produce small micro-perforations into the skin. This results in the expression of growth factors and proteins that are associated with scarless healing and initiate regeneration of the skin. Microneedling is used with active ingredients to improve the skin structure of lines and wrinkles, large porosity, pigment shifts, scars and acne spots.

No1

New scientific findings in epigenetics, long-standing dermatological experience and a skin-soothing formula in the form of PhytoCellTec forte Dr. Gerny® prepared from plant-based stem cells that make No1 cream a unique Top of Swiss Skincare product.

WHAT TO KNOW:

Don't get any strong exfoliation before the 24 hours.

After the treatment, it may be better to don't use make-up that can interrupt the works of the amino acids.

You should refrain in the next 1 day intense sun exposure, solarium and sauna. Sunscreen cream should always be used after treatment to avoid blemishes. The effective Amino Care line, the high-dose professional products and the comprehensive know-how of the specially trained beauticians stand together for proven and quickly visible skin improvements.
